EDUCATION

Odisha University of Technology and Research, Bhubaneswar
Master of Computer Application

November 2021 - May 2023

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript

Tools: VS Code, Figma, Canva, Firebase, Hasura

Libraries/Frameworks: Bootstrap, TailwindCSS, Ant Design, Chakra UI, Mantine, ReactJS, NextJS, React Native, GraphQL

EXPERIENCE

Badho (badho.in), Gurgaon

October 2023 - Present

Full Stack Developer (React Native, NodeJS, GraphQL, Hasura)

- Optimized button, modal components for modularity and consistency across the app.
- Implemented new features in React Native, seamlessly integrating with the backend using NodeJS/GraphQL
- Implemented user activity tracking in the frontend, transmitting logs to the backend for analysis.
- Integrate new GraphQL queries or modify existing ones to better suit our evolving business needs.

Bookingjini (bookingjini.com), Bhubaneswar

February 2023 - September 2023

Frontend Developer (React JS / NextJS)

- Made a web app to scan QR codes to view restaurant menus and order items for dine-in.
- Created a sub-app to register customers for walk-ins to a hotel and update hotel inventory.
- Revamped the old booking engine, created custom components, and reused best practices to develop a modular and maintainable booking engine.
- Maintaining open source project "Bookingjini Icons Pack" for pull requests and issues.

Vichayan (vichayan.com), Bhubaneswar

September 2022 - October 2022

Frontend Developer Intern (React JS)

- Translated UI design to production code using React and Ant Design components
- Collaborated with designers and senior developers to develop a seamless web interface and applied best practices in code

YellMon Labs (yellmonlabs.com), Bhubaneswar

May 2022 - July 2022

UI Developer Intern

- Translated UI/UX design wireframes from Figma into code for producing the visual elements of the application using HTML, CSS, React, and Tailwind
- Coordinated with a cross-functional designer to bridge the gap between graphical design and technical implementation

PROJECTS

Get That API

React, Axios, Git, GitHub

- Designed and developed a browser extension to test your API Endpoints using GET, POST, PUT, PATCH and DELETE methods.
- Users can also add authentication methods, and payload and can view the response.
- GitHub Link: github.com/AshutoshDash1999/get-that-api-browser-extension

EXTRACURRICULAR

- Maintaining technical blogs on "<https://ashutoshdash.hashnode.dev/>" mostly related to Frontend Development.
