EXPERIENCE

Fixity LearningPad (learningpadedu.com), Hyderabad   May 2024 - Present

ReactJS Developer (React, NextJS, Mantine UI, Ant Design, Shadcn UI, Firebase)

- Built performant dashboards and internal tools using Next.js/React, integrating backend APIs, analytics (PostHog), and optimising UI performance.
- Established code standardisation practices that improved maintainability and accelerated feature delivery.
- Mentored interns through technical guidance, code reviews, and professional growth support.
- Built B2B apps for students and teachers, helping them with study and adding school-based study material.

Badho (badho.in), Gurgaon   October 2023 - April 2024

Full Stack Developer (React Native, NodeJS, GraphQL, Hasura, Git)

- Implemented new features in React Native according to business requirements, seamlessly integrating with the backend using NodeJS/GraphQL
- Implemented user activity tracking in the frontend, transmitting logs to the backend for analysis.
- Optimised and revamped existing UI components for modularity and consistency across the app.

Bookingjini (bookingjini.com), Bhubaneswar   February 2023 - September 2023

Frontend Developer (React JS, NextJS, Material UI, Tailwind, Git, Mantine UI, SCSS)

- Developed a QR-code-based restaurant menu ordering system using React and Tailwind, which reduced the manual workload for staff.
- Revamped hotel booking engine with modular React components, boosting maintainability and scalability.
- Maintained the open-source 'Bookingjini Icons Pack', fostering community contributions and improving developer adoption.

SKILLS

Languages: TypeScript, JavaScript, CSS, HTML5, GraphQL

Tools: VS Code, Figma, Canva, Firebase, Hasura, Cursor, Claude Code, Git, Netlify

Libraries/Frameworks: React Native, NextJS, ReactJS, Mantine, Chakra UI, Ant Design, TailwindCSS, Bootstrap, ElectronJS
