Frontend engineer with 3+ YOY building AI-powered web products with React, Next.js, TypeScript, Mantine, Shadcn and Tailwind. Ships fast in lean teams, owns features end-to-end, and integrates LLMs (OpenAI, Anthropic, OpenRouter) into production — with AI-assisted (agentic) development via Cursor, Claude Code, and OpenCode.

EXPERIENCE

Fixity LearningPad (learningpadedu.com), Hyderabad

May 2024 - Present

ReactJS Developer (React, Next.js, TypeScript, Mantine, Ant Design, Shadcn UI, Playwright, Firebase, i18n, PostHog)

- Led frontend for an **AI learning platform** at **5K+ DAU**, owning product cycles end-to-end from design handoff to production in **2–5 days** with **React, Next.js, and Mantine**.
- Shipped a **streaming AI chatbot** and a suite of AI study tools adopted across **5+ products**, lifting **user session time and daily engagement**.
- Built an **OMR + AI evaluation system** that cut grading turnaround by **80%** and unlocked bulk processing — eliminating manual per-student review.
- Established **end-to-end testing with Playwright**, catching UI regressions before release and hardening critical production flows.
- Delivered **admin tooling, internationalization (i18n)**, and **PostHog** analytics within **1-week sprints**, resolving critical production issues same or next day.
- Architected a **reusable component system** and dev conventions that sped up onboarding and made the codebase **AI-agent-ready**, cutting repetitive scaffolding across the team.

Badho (badho.in), Gurgaon

October 2023 - April 2024

Full Stack Developer (Next.js, React Native, TypeScript, Ant Design, GraphQL, Hasura, Node.js, Mixpanel)

- Built a standalone **B2B analytics dashboard** as a separate product — **Next.js, Ant Design, and GraphQL** — surfacing product-usage and business metrics for internal teams.
- Shipped **React Native** mobile features end-to-end against a **Node.js / GraphQL / Hasura** backend, owning UI through to the data layer.
- Instrumented **Mixpanel** product analytics that drove data-backed feature prioritization.

Bookingjini (bookingjini.com), Bhubaneswar

February 2023 - September 2023

Frontend Developer (React JS, NextJS, Material UI, Tailwind, Git, Mantine UI, SCSS)

- Built a **QR-code restaurant ordering system (React, Tailwind)** that cut manual staff workload by **50%**.
- Rebuilt the **hotel booking engine** on a **modular React architecture**, slashing time to ship new booking flows.
- Maintained the open-source **Bookingjini Icons Pack**, driving community contributions and developer adoption.

PROJECTS

PR Pilot

NextJS, React, TypeScript, ShadcnUI, ElectronJS, Vercel, Git, GitHub

- Developed PR Pilot, an AI-powered code review assistant that provides intelligent suggestions, warnings, and generates PR templates, streamlining code review processes.

GPT Lawyer

NextJS, React, TypeScript, MantineUI, Openrouter, Netlify, Git, GitHub

- AI legal assistant that helps users understand and respond to UGC (consumer protection) notices - making legal guidance accessible without a lawyer. Built an agentic frontend with multi-step reasoning via OpenRouter.
