Frontend engineer with 3+ YOE shipping AI-powered web products at 5K+ DAU scale, owning features end-to-end in lean teams. Builds with React, Next.js, TypeScript, Mantine, Shadcn and Tailwind, integrates LLMs (OpenAI, Anthropic, OpenRouter) into production, and works agentially via Cursor, Claude Code, and OpenCode.

EXPERIENCE

Fixity LearningPad (learningpadedu.com), Hyderabad

May 2024 - Present

ReactJS Developer (React, Next.js, TypeScript, Mantine, Ant Design, Shadcn UI, Playwright, Firebase, i18n, PostHog)

- Led frontend for an **AI learning platform** at **5K+ DAU**, owning product cycles end-to-end from design handoff to production in **2–5 days** with **React, Next.js, and Mantine**.
- Shipped a **streaming AI chatbot** and a suite of AI study tools adopted across **5+ products**, lifting **user session time by 30%** and **daily engagement by 20%**.
- Built an **OMR + AI evaluation system** that cut grading turnaround by **80%** and unlocked bulk processing — eliminating manual per-student review.
- Established **end-to-end testing with Playwright**, catching UI regressions before release and cutting post-release bug reports by **10%**.
- Delivered **admin tooling, internationalization (i18n)**, and **PostHog** analytics within **1-week sprints**.
- Resolved critical production issues **the same day or the next**, minimizing user-facing downtime.
- Architected a **reusable component system** and dev conventions that cut onboarding time by **10%** and made the codebase **AI-agent-ready**, cutting repetitive scaffolding across the team.
- Reviewed code and **mentored 2-3 interns**, and led **knowledge-transfer sessions** to onboard new engineers onto the codebase and architecture.

Badho (badho.in), Gurgaon

October 2023 - April 2024

Full Stack Developer (Next.js, React Native, TypeScript, Ant Design, GraphQL, Hasura, Node.js, Mixpanel)

- Built a standalone **B2B analytics dashboard** as a separate product — **Next.js, Ant Design, and GraphQL** — surfacing product-usage and business metrics for internal teams.
- Shipped **10+ React Native** mobile features end-to-end against a **Node.js / GraphQL / Hasura** backend, owning UI through to the data layer.
- Instrumented **Mixpanel** product analytics that drove data-backed prioritization across **25+** features.

Bookingjini (bookingjini.com), Bhubaneswar

February 2023 - September 2023

Frontend Developer (React JS, NextJS, Material UI, Tailwind, Git, Mantine UI, SCSS)

- Built a **QR-code restaurant ordering system (React, Tailwind)** that cut manual staff workload by **50%**.
- Rebuilt the **hotel booking engine** on a **modular React architecture**, cutting new booking-flow shipping time by **25%**.
- Maintained the open-source **Bookingjini Icons Pack**, earning **40+** GitHub stars and reviewing **150+** PRs.

PROJECTS

PR Pilot

NextJS, React, TypeScript, ShadcnUI, ElectronJS, Vercel, Git, GitHub

- Developed PR Pilot, an AI-powered code review assistant that provides intelligent suggestions, warnings, and generates PR templates, streamlining code review and cutting review time by **50%**.

GPT Lawyer

NextJS, React, TypeScript, MantineUI, OpenRouter, Netlify, Git, GitHub

- Constructed an AI legal assistant that processed and clarified over 500 unique consumer protection notices, making legal guidance readily available to a broad user base.

SKILLS

Languages: TypeScript, JavaScript, CSS, HTML5, GraphQL

Libraries/Frameworks: React Native, NextJS, ReactJS, Mantine, Shadcn UI, Ant Design, TailwindCSS, ElectronJS, Playwright

AI / LLM: LLM integration, OpenAI API, Anthropic, OpenRouter, prompt engineering, streaming responses

Tools: Git, Firebase, Hasura, PostHog, Mixpanel, Figma, Cursor, Claude Code, OpenCode, Netlify, Vercel

EDUCATION

Odisha University of Technology and Research, Bhubaneswar

November 2021 - May 2023

Master of Computer Application
