Frontend developer with 3 YOE building AI-powered products at scale. Specialise in React, Next.js, Mantine, Shadcn and Tailwind shipping fast in lean teams, owning features end-to-end, and integrating LLMs into production workflows.

EXPERIENCE

Fixity LearningPad (learningpadedu.com), Hyderabad

May 2024 - Present

ReactJS Developer (React, NextJS, Mantine UI, Ant Design, Shadcn UI, Firebase, i18n, Posthog)

- Led frontend engineering for an AI learning platform at **5K+ DAU**, independently driving product cycles from design handoff to production in 2–5 days using **React, Next.js, and Mantine**.
- Shipped a streaming AI chatbot and suite of study tools adopted across 5+ products, directly driving measurable increases in user session time and daily engagement.
- Built an OMR + AI evaluation system that cut grading turnaround by 80% and enabled bulk processing at scale - eliminating the need for manual per-student review.
- Consistently delivered admin tooling, **internationalization (i18n)**, and **PostHog** analytics integrations within 1-week sprints, with a track record of resolving critical production issues same or next day.
- Architected a reusable component system and standardized dev conventions that accelerated onboarding and made the codebase optimized for AI-assisted (agentic) development -reducing repetitive scaffolding work across the team

Badho (badho.in), Gurgaon

October 2023 - April 2024

Full Stack Developer (React Native, NodeJS, GraphQL, Hasura, Git)

- Built and shipped key mobile features in React Native, integrated end-to-end with a **Node.js/GraphQL/Hasura** backend.
- Instrumented user activity tracking via **Mixpanel**, enabling the product team to make data-backed decisions on feature priorities.
- Refactored existing UI components for modularity and visual consistency, reducing duplication across the app.

Bookingjini (bookingjini.com), Bhubaneswar

February 2023 - September 2023

Frontend Developer (React JS, NextJS, Material UI, Tailwind, Git, Mantine UI, SCSS)

- Developed a QR-code-based restaurant menu ordering system (**React, Tailwind**), reducing staff manual workload by 50%.
- Revamped the hotel booking engine with a modular React component architecture, reducing time to add new booking flows.
- Maintained the open-source 'Bookingjini Icons Pack', fostering community contributions and improving developer adoption.

PROJECTS

PR Pilot

NextJS, React, TypeScript, ShadcnUI, ElectronJS, Vercel, Git, GitHub

- Developed PR Pilot, an AI-powered code review assistant that provides intelligent suggestions, warnings, and generates PR templates, streamlining code review processes.

GPT Lawyer

NextJS, React, TypeScript, MantineUI, Openrouter, Netlify, Git, GitHub

- AI legal assistant that helps users understand and respond to UGC (consumer protection) notices - making legal guidance accessible without a lawyer. Built an agentic frontend with multi-step reasoning via OpenRouter.

SKILLS

Languages: TypeScript, JavaScript, CSS, HTML5, GraphQL

Libraries/Frameworks: React Native, NextJS, ReactJS, Mantine, Ant Design, TailwindCSS, ElectronJS

Tools: Git, Firebase, Hasura, PostHog, Figma, Cursor, Claude Code, Netlify, Vercel

EDUCATION

Odisha University of Technology and Research, Bhubaneswar

November 2021 - May 2023

Master of Computer Application
